programming

technologies

Proficient in:

C#, C++, Java
Ruby on Rails

JavaScript (AngularJS)
HTML, CSS (Bootstrap)
SQL

Experience with:

Python (Django, Flask)
Node.js (Express)
MongoDB

tools

Git, SVN, Bash

interests

Tinkering with new
technologies (hardware
and software)
Playing and following all
major sports
Watching movies

Work Experience

- Sep–Dec 2015 **DBRS** Toronto, Ontario
Full-Stack Developer
- Developed new features in the core application to improve business processes using AngularJS, C#, and SQL at Canada's largest credit rating agency
 - Complete reimplementation of the rating checklist feature for reviewers in order to support a restructured rating process
 - Improved existing methodology status tracker tool by redesigning the front-end and adding business logic to increase analyst efficiency
- Jan–Apr 2015 **ULTIMATE SOFTWARE** Weston, Florida
Software Engineering Intern
- Created and released a webpage scraping Chrome Extension for the code generation of Selenium-based automated tests using HTML, CSS, and Javascript
 - Optimized the speed of Excel report generation tool by over 250% by reducing dependency on Component Object Model processes
- May–Aug 2014 **TORONTO HYDRO** Toronto, Ontario
Student Technician
- Created and verified station design drawings using CAD, whilst demonstrating strong teamwork skills and a keen attention to detail

Projects

- Nov 2015 **ICUbot** <https://github.com/ICUbot>
- Engineered an intruder-chasing robot in C#, leveraging the Microsoft Kinect API for human detection and tracking logic, with a Node.js back-end and robot OS running on Raspberry Pi
 - Winner of **Best Microsoft Hack** at HackPrinceton Fall 2015, with more information and demo at <http://devpost.com/software/icubot>
- Oct 2015 **StoryBook** <https://github.com/storybook>
- A full Ruby on Rails web-app where users can create journal entries, upload pictures, and view other users' stories

Education

- 2013–Present Candidate for **Bachelor of Software Engineering** The University of Waterloo
Cumulative Average: 87%
- Ranked top 10 in the class for multiple terms

Awards and Achievements

Engineering Upper-Year Scholarship for Academic Achievement (2015), American Invitational Mathematics Examination (AIME) Qualifier (2013), President's Scholarship of Distinction (2013)
